---

*For Immediate Release:*

*Stillwater County Public Health and the Stillwater County Health Board will be following the current Governor's directive to lift the mask mandate for the State of Montana and for the County of Stillwater. While businesses and schools are still free to have their own requirements in place and social distancing is still encouraged, there is no longer a mask requirement at this time.*

*We continue to encourage people to socially distance when able, as well as participate in the Covid-19 vaccination program. Please stay advised to the State of Montana's Vaccination plan and sign up ahead of time to get yourself scheduled for vaccination as more vaccines become available.*

*Sincerely,*

  
Mark Crago Commissioner Chair  
Dr. Cody White
